LITEPAPER 2021 Token \$MEET

The first decentralized dating & gaming social network in the meta verse where users can create their own world find new people an meet them at the comfort of their virtual property. Buy \$MEET our deflationary token that has real utility inside the Findmeet ecosystem.

BRIEF

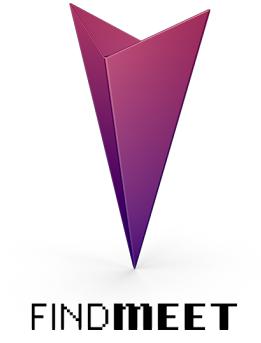

With the spread of various social networks on a global scale, humans realized that finding new friends or lovely mates has never been so much easier. We passed from the big giants of facebook, instagram, snapchat that have done their time. We experienced the amazing dating feature of tinder and badoo. But all of these platforms have something in common. Making things real as soon as possible is always difficult in a world where you can meet hundreds of people in a day.

On top of that, most of these platforms use you and your desire to meet new people, to earn money every single day, leaving you outside from all of that.

This phenomena have triggered a domino effect, developing a **series of problems** that emerged, such as:

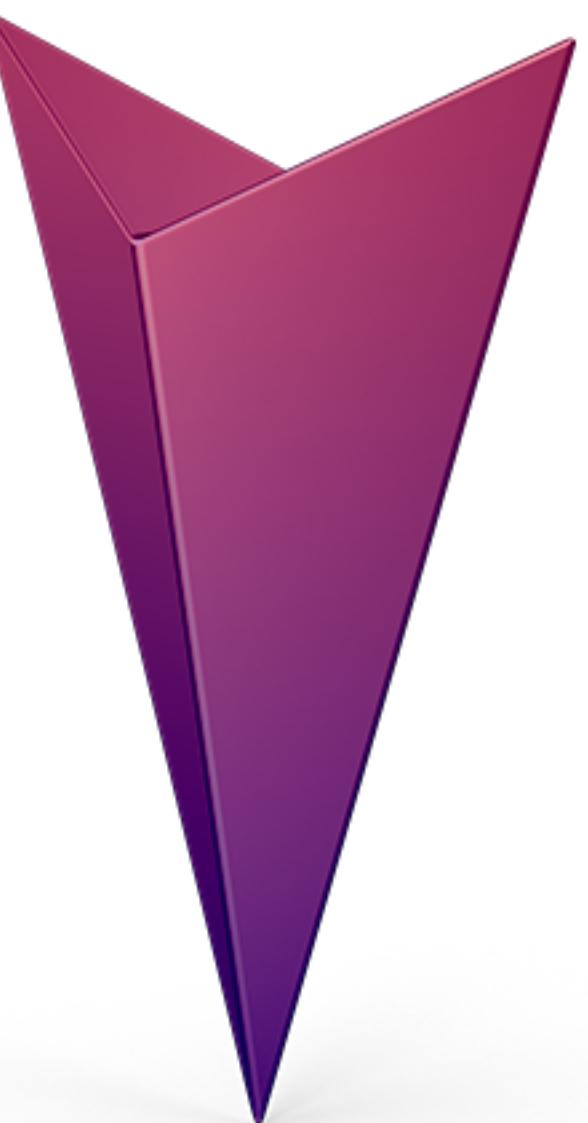

THE PROBLEMS

- Users spend more of their time finding a lot of people that probably will never meet.
- Companies behind make money taking advantage of your desires, make you pay for all the advanced features like "Upgrades", "Promote yourself" etc. Etc.
- Users realize that spend money to try to attract people that probably they will never meet, losing faith and time.
- Users realize that spend money to try to attract people that probably they will never meet, losing faith and time.
- Others than "Finally meet someone" users are never rewarded for their time spent on the social media.

PROPOSED SOLUTION

- Find people instantly
- Get in touch with your rules
- Create and manage your life in the metaverse
- From the app to the metaverse
- Play to Earn (and have fun)
- NFT anonymous login

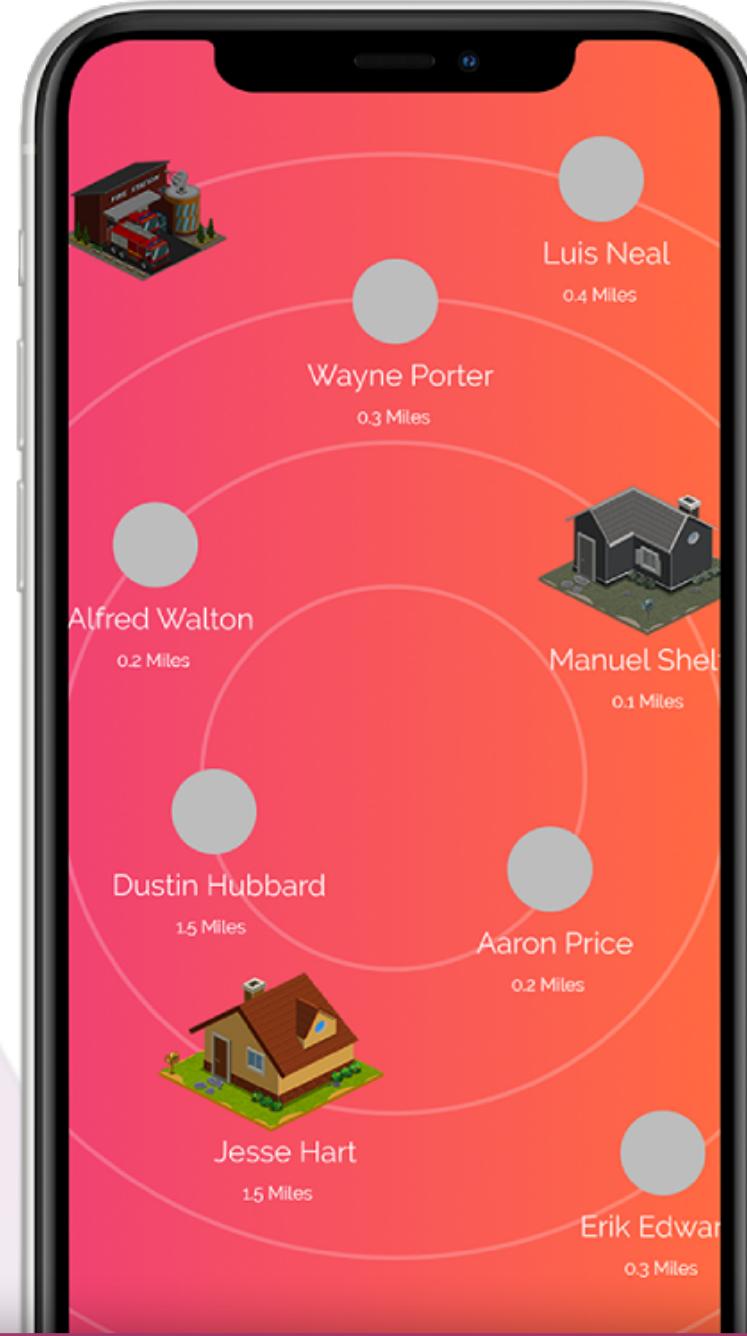

FINDMEET

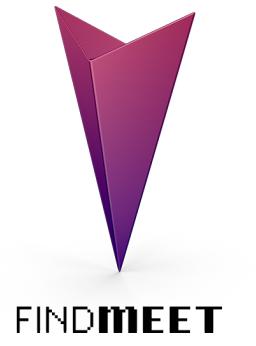

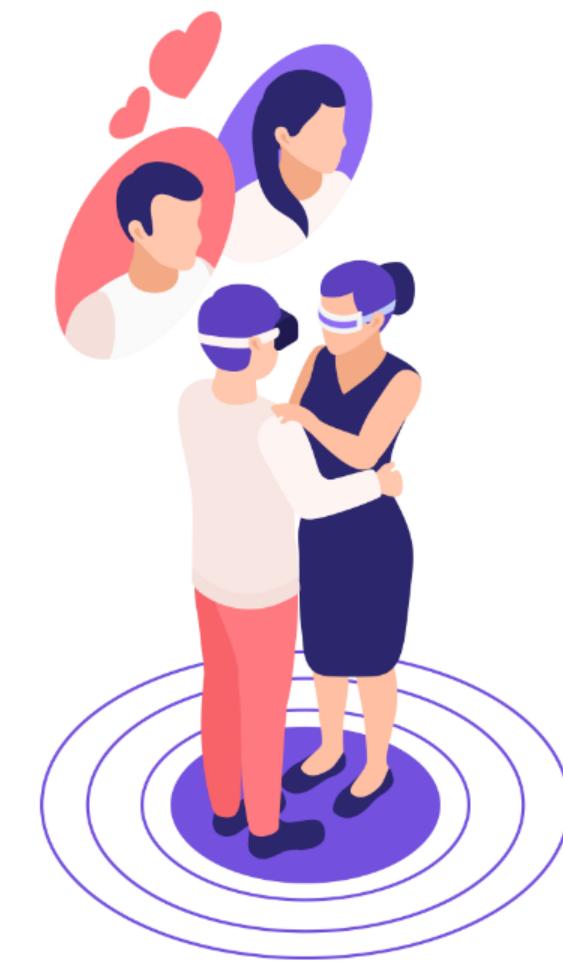

WHAT IS FINDMEET

Findmeet is the first decentralized dating and gaming social network in the metaverse, where users can create their own profile, find new people and meet them at their virtual property that has a real economic value as Nft.

Think for a moment to take the best features of Tinder, Badoo, The Sims and bring them to life in the metaverse. A metaverse where users can create a real economic value for themselves playing to earn and have fun.

WHAT IS FINDMEET

Find people instantly

With findmeet app users can find people around them, or around the world instantly, based on interest, passions, or needs.

Everything it's easy to use for everyone from their smartphone with findmeet app.

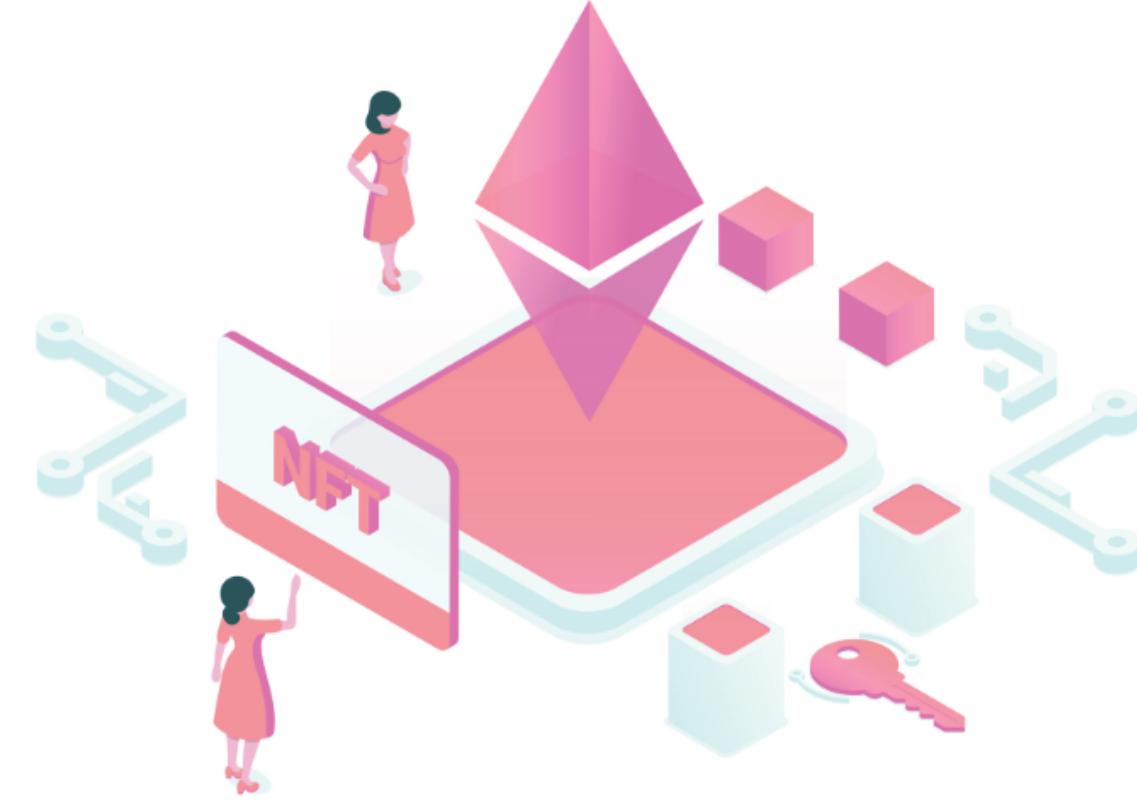

Get in touch with your rules

Chat, super-private video call or share anything with full control about it. Users can decide their own rules, as for example how many \$MEET token it cost to get in touch, to talk, to share private content and much more.

Life in the Metaverse

Users have access to the findmeet metaverse gaming platform where they can create their own life. Think about the famous game The Sims®, except that our game is real life in the metaverse. With \$MEET, you can buy your own property, that instantly become a nft with value, buy things, items, go to the gym, start a new business, earn \$MEET and much more.

WHAT IS FINDMEET

From the app to the metaverse

In findmeet app you can invite people to meet you in the metaverse. You can invite new friends at your findmeet-house, bring people out for dinner, make gifts, parties, have fun and also have intimate relationship in your virtual bedroom ;-).

Play to earn

The more you play the more you earn. User can receive \$MEET rewards or Nfts. Based on the behavior that users have inside findmeet, they can earn or donate \$MEET token. On our Nfts marketplace user can buy clothes, whatches, cars, luxury things and much more with actual utility in the game.

NFT anonymous login

Users data is really important. Findmeet have a unique function for login with no data stored which make findmeet safe and anonymous, for those who needs.
